MIAMI BEACH

57 OCEAN

MIAMI BEACH

OVERVIEW

Inspired by the celebratory character of the Brazilian lifestyle, 57 Ocean brings Tropical Modernism to Miami Beach. Designed by world-renowned architectural firm Arquitectonica, the undulating wood-and-glass structure, embraced by lush foliage, blends harmoniously with its surroundings on the Millionaire's Row section of Collins Avenue. Its prime location provides easy access to the very best of Miami, from the Design District and Downtown to Biscayne Bay and the building's 220 linear feet of beach. Each of the 81 residences are graced with private elevator entries, streamlined Poliform kitchens, comfortable bedrooms and deep wood-lined terraces—true extensions of the home—whose glass balustrades frame the city or the sea. Conceived as one comprehensive suite delivered in many parts, 57 Ocean's amenities are singularly special yet intuitively connected to one another. The Wellness Pavilion is a holistic retreat featuring private indoor and outdoor treatment rooms, a vitality pool, relaxation and meditation areas; a thermal suite incorporates heating and cooling elements including aromatherapy saunas, men's and women's steam rooms and an ice fountain. Beyond the spa, residents can further pursue their wellness goals in any way they choose, from sunrise yoga on the beach, to relaxing by the infinity pool, exercising on the third-floor sunset deck, or entertaining friends and family in the state-of-the-art Chef's Kitchen. This is a one-of-a-kind residence centered around multi-dimensional wellness, with an unparalleled connection to nature. 57 Ocean elevates mindful living in Miami Beach.

Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the square footage and dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). For your reference, the area of the Unit, determined in accordance with these defined unit boundaries, is as set forth on Exhibit "3" to the Declaration of Condominium contained in the Prospectus. Measurements of rooms set forth on this floor plan are generally taken at the farthest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts or variations. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length and width. All dimensions are estimates which will vary with actual construction, and all floor plans, specifications and other development plans are subject to change and will not necessarily accurately reflect the final plans and specifications for the development. All depictions of appliances, counters, soffits, floor coverings, furniture and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in each Unit.

ORAL REPRESENTATIONS CANNOT BE RELIED UPON AS CORRECTLY STATING THE REPRESENTATIONS OF THE DEVELOPER. FOR CORRECT REPRESENTATIONS, REFERENCE SHOULD BE MADE TO THE DOCUMENTS REQUIRED BY SECTION 718.503, FLORIDA STATUTES, TO BE FURNISHED BY A DEVELOPER TO A BUYER OR LESSEE

These materials are not intended to be an offer to sell, or solicitation to buy a unit in the condominium.
